More...Action, Adventure, Aquamissions!

Who can be a PADI Master Seal?

The PADI Master Seal Team is a program for children eight years or older who are PADI Seal Team Members or PADI Junior Open Water Divers. The PADI Seal Team provides a structured learning environment combined with enjoyable scuba activities. This stimulating program appeals to kids who crave adventure, seek the challenge of learning new skills and want to gain an appreciation for preserving the aquatic realm.

What do PADI Master Seals do?

To become a PADI Master Seal, each participant must complete the following Specialty Aquamissions:

CREATURE ID SPECIALIST	Learn to identify underwater creatures.
ENVIRONMENTAL SPECIALIST	Learn skills to keep the environment clean.
INNER SPACE SPECIALIST	Explore weightlessness in an u/w space station.
NAVIGATION SPECIALIST	Find your way underwater using a cool compass.
NIGHT SPECIALIST	Use an underwater light to find your way.
SAFETY SPECIALIST	Learn about underwater safety and help others.
SEARCH/RECOV. SPECIALIST	Use a lift bag, tie knots and find things u/w.
SKIN DIVER SPECIALIST	Learn to use your snorkel to stay underwater.
SNAPSHOT SPECIALIST	Use an underwater camera to take pictures.
WRECK SPECIALIST	Dive on a Shipwreck in the pool and map it.

The adventure continues...Master Seal Team Members are ready to start their Jr. Open Water Diver Certification or, if they are already certified, start their Jr. Advanced Open Water Certification once they are 12 years old. The skills they have learned will help them become safe scuba divers, good dive buddies and have a blast!
